**WARRANTY:**

All European remanufactured transmissions come standard with our 2 year unlimited mileage Parts and Labor Warranty. All other remanufactured

transmissions come standard with our 2 year, 24,000 mileage Parts and Labor Warranty.

If your transmission should fail during the Warranty Period we will pay for necessary repairs up to \$55 per hour times the Mitchell rate, up to \$500 maximum per incident as long as the repairs are performed by a licensed repair facility. Warranty includes removal and reinstall if necessary. (For information on available extended warranties, please speak to your Sales Associate.)

If we believe that problems have occurred due to faulty installation, we will ask that the transmission be returned to us for inspection by one of our technicians. If this occurs, we will pay ground shipping both ways. Claims that result from accident, alteration, abuse, neglect, improper installation or maintenance shall void the warranty.

#### **CORE RETURN INSTRUCTIONS**

Following is the bill of lading and labels you need to ship back the transmission core. Please secure the label to crate.

**Call ANDY POORE as soon as the core is ready to be shipped back. The local phone number is 616-748-5721**

Sign both copies of the bill of lading and keep one copy for your records.

Contact Andy at 616-748-5721 if you have any questions.

#### **The Following Items Must Be Done:**

##### **Drain Fluids**

**Please make sure the core comes back in our CRATE or Pallet that the new transmission or engine was sent in or a \$250.00 fee will be applied to your account or card.**

**Attach Core Tag to Core for Proper Credit**

**Secure Torque Converter with Bracket**

**Do Not Disassemble Core**

Thank you.

Andy Poore

Cooler flush on vehicle **MUST** be done. IF OUTSIDE  
CONTAMINATION IS FOUND – WARRANTY WILL BE VOID.

Flywheel spacer that is included must be installed for proper  
alignment. (For Ford Units Only)

Always install O-Rings and Seals included with this transmission.

If vehicle has external MLPS switch, this needs to be updated  
version and properly aligned.

Check computer for codes and clear all codes.

Check radiator fluid level.

Check fan clutch for proper operation.

Road test vehicle.

This Unit Has Been Fully Remanufactured and Dyno Tested
